This will acknowledge your letter of September 19, 1985 that included certification by an independent professional engineer dated September 11, 1985 that the waste piles at the above referenced facility were closed in accordance with the closure plan that was approved December 17, 1984.

Upon receipt of certification by the owner/operator we will schedule a site inspection and, upon completion, will verify that closure has been completed and that Birmingham Bolt Company may be released from financial assurance mechanisms.

Sincerely,
